

Housatonic River Walk

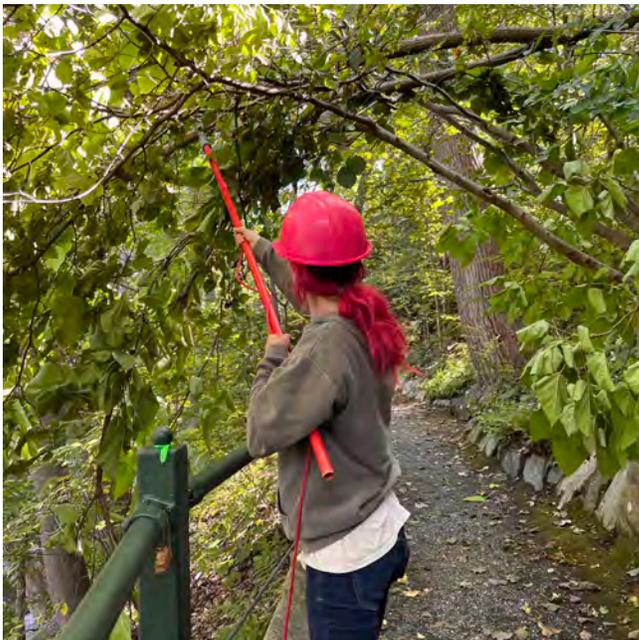

Project of the Great Barrington Land Conservancy

Highlights of the 2025 Season

River Walk's annual care and maintenance relies heavily on partnerships. Each year our Greenagers interns complete the weekly work required to maintain the trail. This year we also hired Greenagers trail crews to help us complete big projects like the replacement of sections of split rail fence. Their skills and youthful energy helps us to keep the trail in tip-top shape.

River Walk also depends upon the volunteer hours provided by individuals and groups. Volunteer workdays and special events for local businesses like Berkshire Bank help us to engage our community in the ongoing stewardship of the trail.
